Cable & PoE Tester NF-468PT

Item Specifics:

Is_customized : **Yes**

Model Number : **NF-468PT**

Place of Origin : **Shenzhen.China**

Main Function : **Verify RJ11,RJ45 cables, detecting PoE**

Power : **9V Alkaline battery**

Features:

1. Visible LED status display.

2. Check the RJ11& RJ45 Cable quickly.

3. Automatically runs all tests and checks for continutiy, open,shorted and crossed wire pairs.

4. Detect if a lan cable is providing power.

5. detect if the IEEE 802.3af/at PoE voltage runs over the UTP cable and identify the type of PSE (Power Source Equipment) for troubleshooting.

6. Endurable and prevent of burnout.

7. 4 lights will be flashing when start PoE test.

8. Slow and fast test switch.
