

Specifications:

- 1: Please refer to tolerance table if no tolerance is specified
- 2: Product surface must not have burr, be out of shape, dirty wait for undesirable phenomenon
- 3: Raw materials need to meet Rohs standards
- 4: Insertion force and extraction force: $\leq 19.6\text{N}$
- 5: Insertion loss: $\leq 0.3\text{dB}$
- 6: Durability test: 500 cycles
- 7: High and low temperature testing: -20°C to 70°C
