

Smart Cleaner SC Instruction Manual [18039]

Thank you for choosing the Smart Cleaner SC. The Smart Cleaner SC is a high-performance device designed for cleaning the ferrule end faces of SC, ST and FC connectors with UPC and APC polishes. Carefully read this instruction manual before using this device. Please keep this instruction manual for future reference.

1. Safety precautions

Though our device is deemed safe, improper usage or handling can still inflict injury to others.

Smart Cleaner SC is designed to clean SC, FC and ST connectors only. It is not liable for damage caused in attempt to apply this device to other applications.

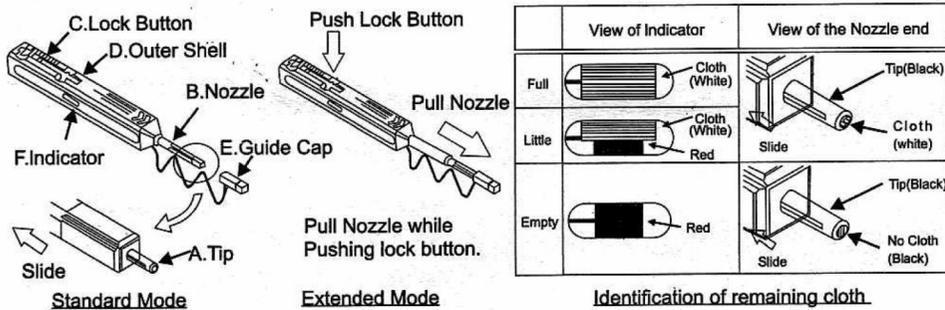

2. Notes on usage

- Do not attempt to disassemble as this can cause damage to the device.
- Do not re-use cleaning cloth as this will eliminate its cleaning ability.
- Do not touch the cleaning cloth as this will cause contamination.
- Do not pull the cleaning cloth, use only the device body.
- Do not use this cleaner when the cloth is empty, as this can cause damage to the connector.

3. Notes on storage for extended periods

Do not expose device to direct sunlight, high temperature or high humidity. The cover on the guide cap should be closed at all times when device is not in use.

4. Device construction

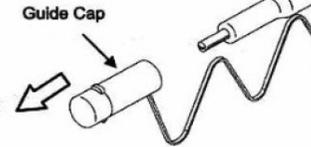

No.	Part Name	Function
A	Tip	Lead the cleaning cloth to the optical connector end face.
B	Nozzle	Lead tip to the optical connector end face.
C	Lock Button	Push the button to extend and contract the nozzle.
D	Outer Shell	Push the outer shell to clean the connector.
E	Guide Cap	Acts as dust cap or cleaning adaptor for connector plug.
F	Indicator	Provides indication of remaining cleaning cloth

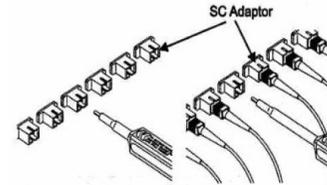

5. Applications

<Connector inside adaptor>

1. Remove Guide Cap from the device.

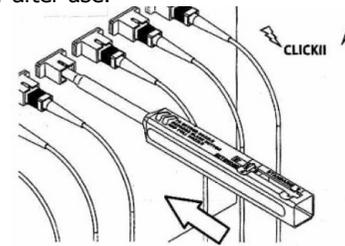

2. Insert tip of cleaner into SC Adaptor.

Note: This drawing shows only SC, but this production can clean ST, FC too.

3. Push the Outer Shell to start cleaning the SC connector end face. A "click" sound indicates end of cleaning process. Close the cover after use.

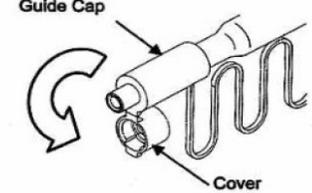

Be careful not to slant the Smart Cleaner SC while inserting into the adaptor.

Do not overly exert force during insertion as this may cause damage to both the connector and the Smart Cleaner SC.

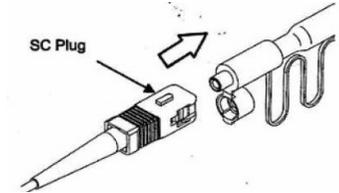

If pushing Outer Shell is inhibited, remove Smart Cleaner SC from adaptor and ensure that there is no sizeable debris inhibiting the cleaning process.

<Connector plugs alone>

1. Open the Cover on the Guide Cap.

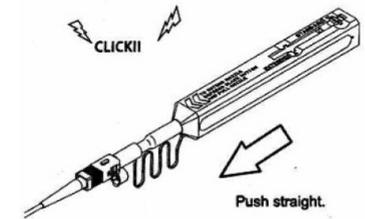

2. Insert SC connector into the Guide Cap.

Note: This drawing shows only SC, but this product can clean ST, FC too.

3. Push the Outer Shell to start cleaning the SC connector end face. A "click" sound indicates end of cleaning process. Close the cover after use.

Be careful not to slant the Smart Cleaner SC while inserting into the adaptor.

Do not overly exert force during insertion as this may cause damage to both the connector and the Smart Cleaner SC.

If pushing Outer Shell is inhibited, remove Smart Cleaner SC from adaptor and ensure that there is no sizeable debris inhibiting the cleaning process.
