USE OF THE CABINET

Each cabinet allows the installation of 10" (10U horizontally) or 19" components (5U vertically). When the network must be enlarged, then it is not necessary to change the infrastructure. It is enough only to reconnect current cabling. All this makes the cabinet to become a perfect solution for all small and mid-sized installations (SOHO solutions). The cabinet is offered in three different depths which cover basic dimensions of active components, which are also intended for such solutions.

RKA WALL-MOUNTED CABINET – 10"/19"

■ DESCRIPTION, PURPOSE OF USE

- 10" / 19" wall mounted cabinet with IP30 protection
- Cabinet is to be hanged right on the wall.
- Cabinet includes adjustable frame for device installation.
- Cabinet construction:
